DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-10, drawn to communications network for providing selectable services related to student financial aid application and administration, classified in class 705, subclass 35.
 - Claims 11-25, drawn to application for providing a multilevel financial aid system, classified in class 705, subclass 35.
 - III. Claims 26-37 and Claims 38-46, drawn to automated method for providing financial aid to a student where the method employed in conjunction with an interactive on-line financial aid system.
 - IV. Claims 47-54, drawn to method for processing an on-line student financial aid application.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombinations as claimed do not require the particulars of the other subcombinations as claimed because:

Group I is directed to communications network,

Art Unit: 3693

Group II is directed to a application system for providing a multilevel financial, and

Group III is directed to method for providing financial aid interactively.

Group IV is directed to method for on-line student financial aid application.

where each has separate utility such as: communication, multilevel financial aid, interactive application, and processing application. See MPEP § 806.05(d).

The examiner has required restriction between subcombinations usable together. Where applicant elects a subcombination and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR 1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Spoke to attorney Richard Moose (Reg. # 31,226 – Phone: 864-271-1592) on 10/12/06 and on 10/13/2006 Mr. Moose left a message for asking a written restriction requirement, per applicant request.

2. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required

Art Unit: 3693

because the inventions require a different field of search (see MPEP § 808.02). restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Harish T. Dass whose telephone number is 571-272-6793. The examiner can normally be reached on 8:00 AM to 4:50 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James P. Trammell can be reached on 571-272-6712. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
